

Ius Commune Conference 2020

Workshop on International Economic Law

Theme: The Rule of Law in International Decision-Making

This workshop takes stock of the implementation of rule of law principles in international institutional decision-making, including dispute-settlement. It aims to discuss the meaning of the rule of law, problems regarding the rule of law, and the contribution of courts and supervisory bodies to the rule of law in international institutions. The workshop consists of four presentations, followed by Q&A. The presentations concern human rights and investment disputes, accountability in international carbon markets, sovereignty and rule of law, and democratisation of the World Health Organization.
