

# Ius Commune Conference 2019

## Workshop: Property Law

---

Thursday, 28 November (14.00 – 18.00)

Building: Oude Valk

Room: Zeger van Hee

### Participants

Property law is subject to major developments due to the changes in society as a whole, and new technological possibilities more specifically. These developments can affect the basis principles of property rights, from the transparency principle to the object of property rights. The historical foundations of property law – such as the exclusivity principle – come under pressure and are being re-analyzed.

As is the tradition in the workshop Property Law, we also give the opportunity to beginning Ph. D. students to present their Ph. D. research. This will be done after the coffee break.

### Innovation and Property Law

**Chair:** Prof.Dr. Vincent Sagaert (KU Leuven)

14.00 – 14.05 *Opening by the Chair*

14.05 – 14.40 **Drs. Alexander Appelmans** (KU Leuven)  
*The Tokenization of the Object of Property Rights*
